

## **Bite&Go in collaboration with Gioielleria Remida Tornaghi, comes to St. Moritz from 1 to 5 March 2022**

**Gioielleria Remida Tornaghi via Serlas 31, St. Moritz**

Bite&Go is coming to St.Moritz in collaboration with the Remida Tornaghi jewellery store from 1 to 5 March 2022. This international touring project was conceived by Nicoletta Rusconi Art Projects to promote works by emerging, mid-career and established artists that are unique, unpublished, small and medium format and affordable.

Through in-depth research and conscious selection, designed to promote the languages of contemporary art and design indiscriminately, Bite&Go meets Remida Tornaghi, whose mission, for more than forty years, has been to design unique products that are classic, modern and contemporary at the same time.

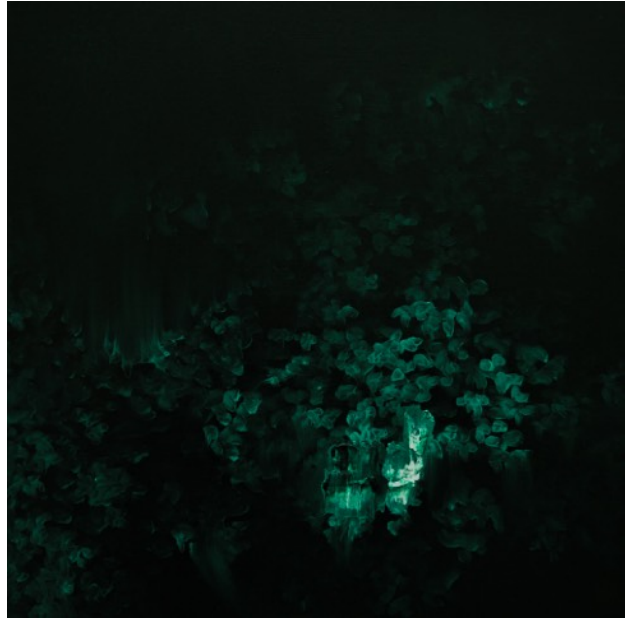

Sharing the firm intention of creating a distinctive identity, one that can be trusted, one that cannot be done without, *"in a setting of exclusive pieces for those who appreciate jewellery as much as a way of being as a precious luxury"* - says Andrea Tornaghi, the doors are opened to contemporary art so that it *"involves more and more people, even those who are still afraid of it, to start investing at a reasonable price: whether a young or established connoisseur who wants to approach or start a special collection"* - explains Nicoletta Rusconi, collector, patron and founder of Bite&Go.

## ■ Nicoletta Rusconi Art Projects

The works of Aaron Bezzina, Giulia Dall'Olio, Giulio Delvè, Giulio Frigo, Giulia Fumagalli, Eduard Habicher, Yari Miele, Davide Mineo, Francesco Maccapani Missoni, Pierre-Etienne Morelle, Gianluca Patti, Alice Pedroletti, Federico Pepe, Reverie, Vanessa Safavi, Arjan Shehaj, and Henrik Stromberg will be presented in dialogue with the Rock collection and the gromettes of the Tornaghi jewellery, restoring a great sense of contemporaneity precisely because of their ability to live well together while offering strong suggestions.

Bite&Go continues to integrate digital fruition with presence and offers new showcases for exhibition and dialogue with the public to give shape to new types of collecting.

A physical evolution of ARTbite, the original Instagram profile conceived as a digital showcase for exhibiting and promoting artists, Bite&Go also maintains a permanent location in Cascina I.D.E.A. - an acronym for Independent Domus Exhibiting Art -, which is based in an old restored farmhouse in Agrate Conturbia, in the province of Novara.
